Company or Individual website	www.softwareafrica.co.za
Mission and Passion	Catchments, rivers from source to sea; education of everyone in managing their waste; cleaning rivers and removing invasives.
Experience	<i>Years of riding and walking the catchment in order to clean what I can. Conscious waste management practices at home have led me to understand how others can benefit.</i>
SEE Objectives	Clean healthy rivers and healthy communities; food security; waste management from shop to recycler; an aware society with sustainable jobs
Commitment Description	To assist in restoring the Jukskei through canvassing companies; schools and places of worship to become members; to give presentations on the need to restore the health of our rivers whenever possible; to educate people about the value of rivers in their lives
Objectives in terms of the WET Jukskei 67 Proof-of-Concept Project	To achieve a growing membership base that facilitates the work
Anticipated Measurable SEE outcomes for above	At least funding of R1 000 000 from non-government organisations by end of Year 1
